

Marketing Performance Overview

Overview of Advertising Spend and Sales Performance

💡 Key Insight:-Both TV and Radio advertising spend show a positive relationship with sales.

Bayesian MMM Insights

Channels Impact and Model Insights from Bayesian Marketing Mix Modelling

💡 Baseline Sales

2.92

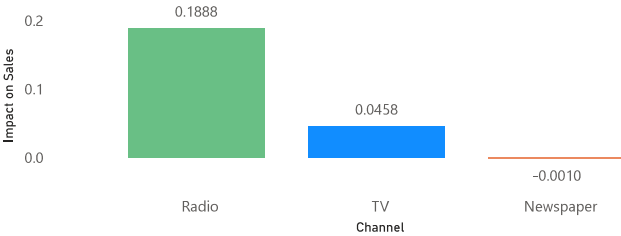

Expected sales even with zero advertising spend.

💡 Strongest Channel

Radio

Radio has the highest positive impact on the sales.

Bayesian Channel Impact on Sales

Bayesian MMM Results

Channel	Posterior Mean(Impact)	89% Lower Bound	89% Upper Bound
Newspaper	-0.0010	-0.0110	0.0084
Radio	0.1888	0.1700	0.2000
TV	0.0458	0.0440	0.0480

The 89% Credible Interval shows the uncertainty around the estimated impact

Key Insights

- Radio has the highest impact on sales.
- TV contributes positively to revenue.
- Newspaper has minimal influence.
- Baseline sales(Alpha=2.92) exist even without any advertising spend.
- Model achieved R-hat = 1.00 indicating stable convergence.

Business Takeaway

Focus more budget on Radio advertising for maximum sales impact. Maintain TV advertising as a supporting channel and reconsider Newspaper spend due to its minimal impact on sales.
